

**XVII INTERNATIONAL SYMPOSIUM
"ARS SEPARATORIA 2002"**

(17–20, JUNE, 2002, BORÓWNO, POLAND)

Organized by: Section of Coordination Chemistry, Polish Chemical Society, Department of Inorganic Chemistry University of Technology and Agriculture in Bydgoszcz, Faculty of Chemistry, Nicolaus Copernicus University, Toruń.

Purpose of the symposium

The Organizing Committee of "Ars Separatoria" is honoured to invite you for XVII Symposium. The main objective of the "Ars Separatoria 2002" Symposium is to present and discuss latest achievements in separation, isolation and purification processes applied in chemistry, industry and environmental protection. Phases equilibria, solvent extraction, flotation, chromatography, membranes are the examples of topics of our primary interest.

Authors planning to attend the "Ars Separatoria" Symposium are kindly requested to complete the registration form and send it before March 31, 2002 on the address:

Professor Beniamin Lenarcik, Department of Inorganic Chemistry,
University of Technology and Agriculture, Str. Seminaryjna, 3, 85–326,
BYDGOSZCZ, POLAND.

Phone: (+48) 52 379-29-00, Fax: (+48) 52 373-11-60,

E-mail: Beniamin.Lenarcik@atr.bydgoszcz.pl.
